## CANADIAN PATROLS DRIVE FORWARD TO OUTSKIRTS OF LENS

Village Occupied at Gates of Stronghold Early  
This Morning

FRENCH REPULSE ATTACKS OF ENEMY

Violent Artillery Engagement Reported in Paris  
Communique

(International News Service.)  
London, June 28.—Pushing their way forward over craters and torn roads, Canadian patrols advanced to the very outskirts of the important city of Lens just before daybreak today.  
With little opposition the Canadians moved forward and occupied the village of Eleu ditte Lezeuville.

## TRY TO CORRECT RUSSIAN WAR AIMS

(International News Service.)  
Washington, June 28.—The problem presented by the Russian war aim, "no annexation and no contributions," which is in serious conflict with the announced peace terms of the other entente allies, will be formally taken up by the United States with the Russian government. Secretary Lansing made it plain today that other than President Wilson's recent note to the Russian people, there has been no diplomatic correspondence on the subject.

## President to Place Embargo on Wheat

(International News Service.)  
Washington, June 28.—An order placing an embargo on unauthorized wheat shipments from this country is on President Wilson's desk awaiting his signature this afternoon. He will probably sign it and issue the embargo order tonight.

## Lawn Party at the Y. M. C. A. Tonight

There will be nothing sad about the lawn party at the Y. M. C. A. tonight, as arrangements have been made for a good time. Hauck's orchestra will furnish music. This musical organization has kindly consented to play, and contribute their share to making the evening a pleasant one. A quartet, composed of McCulloch and McCulloch, Rawson and Curtis, will delight all who hear them.

## Heat Wave Breaks, Only 92 Today

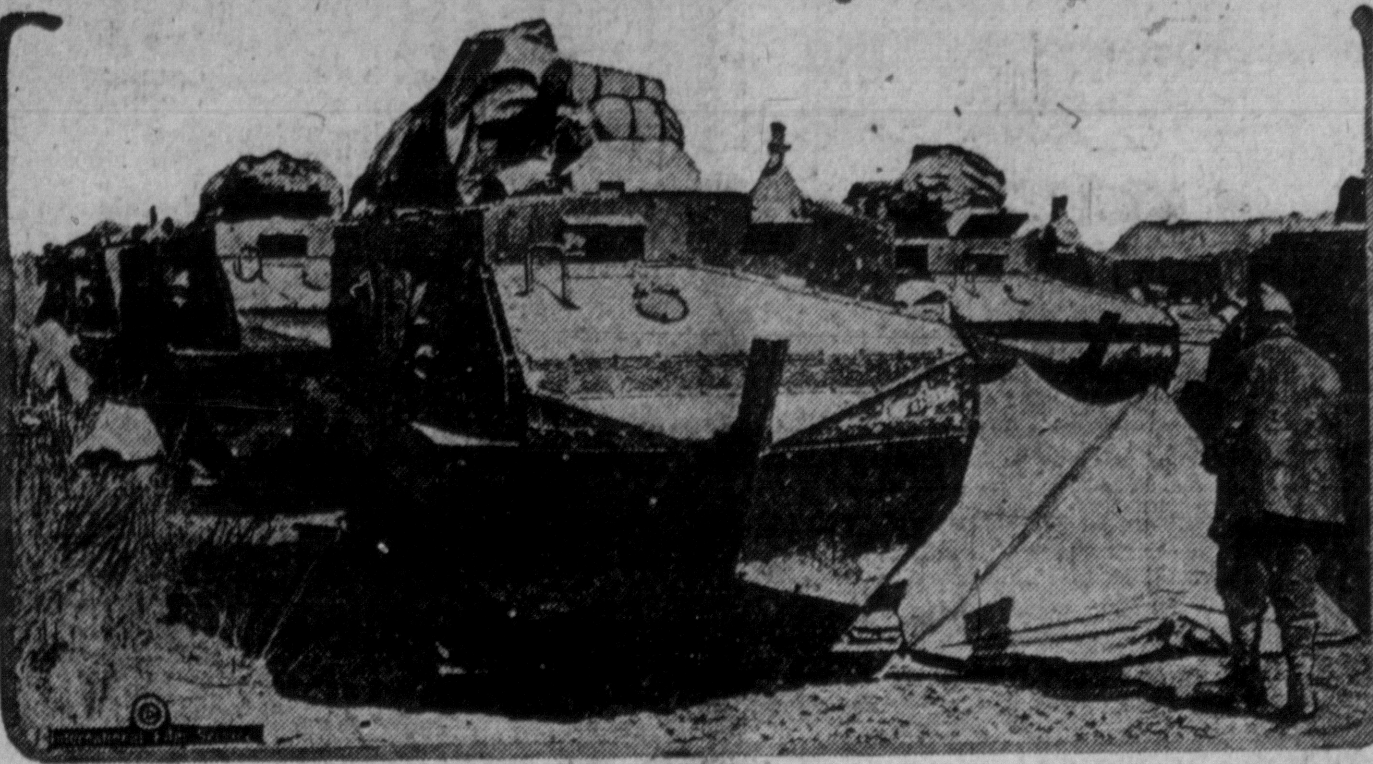

The temperature today has dropped from the century mark down to 92 degrees, according to Mrs. Irons of the weather bureau. The thermometer yesterday remained at 100 until about 4 o'clock.

## Bath Houses For Riverside Beach May Be Built at an Early Date

Already Society, Duly Chaperoned, is Indulging in its  
Early Morning Swim

Bathing is to become the popular pastime locally, provided the efforts of Neil Speake and Stanley Wyatt to build bath houses at Riverside beach are successful. Already many pretty young ladies, dutifully chaperoned, are doing aquatic stunts in the classic Tennessee river along about 5:30 o'clock in the morning, and the sport is becoming so popular that it has almost reached the stage where it can be called something more than a fad.  
The plan now under consideration is to build two bath houses at the Riverside beach, one for men and one for women, and also to construct a floating raft to be armed with a spring board. The total cost will not exceed \$100, it is estimated. The beach will be roped off, probably, for beginners.  
Plans for building the bath houses are as yet in the embryonic stage, but it is almost certain that they will be matured and carried out in the near future.

## PARK OF FRENCH BATTLE "TANKS"

French "tanks" that are being used effectively in the battles against the Germans. On top of each is the canopy that is drawn over it to conceal it from enemy airplanes.

## PROHIBITION FIGHT IN WILL IRWIN, WELL SOW WHEAT AND SENATE IS OPENED KNOWN BARBER IS PLANT LATE CROPS TODAY IN EARNEST; RELEASED; HUSBAND ADVISE SPEAKERS ARIDITY IS CERTAIN IS UNDER ARREST FROM BIRMINGHAM

UPPER HOUSE DIVIDED AS TO WHETHER THE BREWERIES  
SHALL ALSO BE FORCED OUT OF BUSINESS DURING WAR.

### TRY SUBSTITUTE HOUSE BILL

MANY SENATORS IN FAVOR OF  
HALF WAY MEASURES AND  
WILL CONTENT FOR BEER AND  
WINE SALES.

(International News Service.)  
Washington, June 28.—The prohibition battle in the senate began today with deadly earnestness.

The upper house had before it the agriculture committee's recommendation of flat prohibition modified by the concession authorizing the president to permit the manufacture of wine.

That prohibition would gain at least a partial victory still seemed a foregone conclusion. The agriculture committee's proposal to prevent the brewing of beer as well as the distillation of whiskey during the war period has intensified the prohibition fight.

Many senators who are in favor of partial prohibition as a means of food conservation openly declare the belief that the inclusion of beer would be too much for the country to digest at one time. A vigorous fight to amend the measure so as to permit brewing will be launched immediately.

The first move of the senate today will be to substitute the house bill as amended by the senate for the senate bill, which has been under consideration for the past two days.

## Shriners Meet Next in Atlantic City N. J.

(International News Service.)  
Minneapolis, Minn., June 28.—Chas. E. Ovenshire, Minneapolis, was advanced to the office of imperial potentate; David W. Crossland, Montgomery, Ala., was elected imperial outer guard, and Atlantic City, N. J., was selected for the 1918 meeting at the closing session of the imperial council, Nobles of the Mystic Shrine.

## Not a Chance For Separate Russ Peace Says Jap Minister

(International News Service.)  
Tokyo, June 28.—Viscount Motono, Japanese foreign minister, replying to an interpellation in the Diet, declared he did not believe there was a chance of Russia's declaring a separate peace with Germany. He further indicated that Japan would be unwilling to give up the former German possessions at Tsingtau, taken by Japan early in the war.

## SENSATIONAL TURN TAKEN TO- DAY IN SALLIE MALONE MUR- DER CASE.

Will Irwin, well known negro barber, was acquitted this morning at the preliminary hearing before Judge F. M. Hamilton of the Albany inferior court, and Judge Frank Davis of the Decatur inferior court, of the charge of killing Sallie Malone near Fairview on the Flint road last Sunday morning.

Chas. Eyster, attorney for the state, after privately examining some of the witnesses, announced to the court that no evidence could be secured against Irwin and asked the court to nolle pross the case. Judge Davis promptly released the prisoner.

It is understood that Will Irwin could prove that he did not leave his barber shop and the city until after the crime had been committed. Tennes Tidwell was the counsel for the defense.

The preliminary of Sadie Malone, implicated in the killing, and in the room at the time of the tragedy, was postponed until Thursday, July 5, because all the witnesses were not present.

Pink Malone, the husband of the deceased woman, was lodged in jail this morning charged with the murder.

It is estimated that there was over 500 persons present at the preliminary hearing this morning.

Later in the day Belle Shelby, a negro woman, was arrested in connection with the crime and placed in the county jail.

## T. H. Alexander Lost to the Fourth Estate

Severs Connection With Daily and Be-  
comes Postmaster June 30.

T. H. Alexander, after a newspaper career of several years, has dropped from the ranks of the scribes and at the close of business on June 30 will be sworn into office as the first postmaster of Albany. Mr. Alexander passed along a professional au revoir to the force at the Daily last night and left for a brief vacation in Lawrence county. He will return here Saturday to assume his new duties.

Henry Watson, of Moulton, a student at the State University and a young man of sterling worth, has accepted a position with the Daily as reporter. He has previously had some newspaper experience as Moulton correspondent for the Daily and other newspapers, and promises to make good in the ranks of journalism.

## GERMAN DIPLOMATS PROFANE OUR SHORES.

(International News Service.)  
An American Port, June 28.—Six German diplomats and their families arrived here today on a steamer from South America. They are on their way back to Germany.

## CAPTAIN FRANK S. WHITE, FRANK WILLIS BARNETT AND OTHERS ARE HEARD.

### SPEAK AT DECATUR FRIDAY

ALBANY BOARD OF COMMERCE  
WILL ISSUE BULLETIN FOR DIS-  
TRIBUTION AMONG FARMERS  
OF COUNTY.

A representative body of business men attended the food conservation meeting at the Albany Board of Commerce yesterday afternoon. Because of some misunderstanding the Decatur meeting announced for 8 o'clock at the city hall was postponed until Friday at 2 p. m.

Capt. Frank S. White, former United States senator, was chairman and first speaker of the Albany meeting. He emphasized the importance of sowing lots of wheat and turnips, and that now was a good time to plant some late vegetables and potatoes. Senator White said that crops in southern and central Alabama are suffering fearfully for rain and that therefore many mouths were looking to North Alabama.

The next speaker, T. P. Hays, stated that there is a market for everything that the farmer raises, provided he puts it in a marketable form. He showed among other things how to build a proper storage house for Irish potatoes. Mr. White announced in the course of his speech that he had sold \$1,700 of Irish potatoes from his farm this year, getting on an average of \$3 a bushel.

Frank Willis Barnett, of the Birmingham Age-Herald, spoke a few moments in eloquent style. He stated that he was a preacher by calling but that he was connected with a secular newspaper because he could do more good there than in the pulpit.

The Albany Board of Commerce has decided to get out a bulletin, "How to Grow a Small Crop of Wheat."

The intention is to have the department of agriculture furnish the data and have the Board of Commerce distribute the bulletins. The Bell Telephone Company announced at the meeting that it would send a copy of the bulletin to each of its subscribers.

## Suff Leaders Plan Further Disloyal Banner Wavings

(International News Service.)  
Washington, June 28.—With six of their members in jail today, leaders of the National Woman's Party were laying plans for new demonstrations to impress upon the American public mind their plea that "the United States is not a true democracy until women are given the vote."  
Very secretly they are planning to unfurl their banners comparing the condition of women here to the women of Ireland under British rule.

## PERSHING TO HAVE SOLE COMMAND OF TROOPS IN FRANCE

American Contingent Will Not Be Subject to  
Allied Generals

BRITISH PRESS IS MOST JOYFUL

Doesn't Hesitate to Give Space to Landing of  
U. S. Regulars

(International News Service.)  
A French Seaport, June 28.—The American expeditionary forces in France will serve under Maj. Gen. John J. Pershing and not under any British or French commander.  
This became definitely known today, following the arrival here from Paris of General Pershing, who came here with his staff to review the first contingent of Americans to land on French soil.

General Pershing will co-operate in every way with both Field Marshal Haig and General Petain, the British and French commanders, but he will be in supreme command of the men who fight under the Stars and Stripes and will take no orders excepting from Washington. This statement was made by a high American officer to clear up some misunderstanding that apparently had arisen in England.

Unquestionably this decision will meet with great favor among the men who fought under Pershing in Mexico and who, while having the highest respect for the allied commanders, much prefer to be under the supreme command of General Pershing.

The American troops will remain here for a short time and then will be shifted nearer the firing line, where they will receive the final training. It will not be many weeks before they are ready to take over the sector of trenches assigned to them. It was pointed out that only a short time elapsed between the arrival of the Russian contingent in France and their first appearance on the Champagne front.

The entire population of this port today turned out to welcome the American soldiers and the sailors of the warships that conveyed the transports safely through the submarine zone. The universal verdict was that France has seen no finer looking body of fighting men. Shop keepers marveled at the manner in which the Americans spend money.

## BRITISH MUCH PLEASED AT LANDING OF TROOPS.

(International News Service.)  
London, June 28.—The landing of American troops in France was the overshadowing topic of interest in military circles today and received more attention from the English press than the battle for Lens.

Critics everywhere rejoiced at the news and expressed the hope that the Stars and Stripes would soon be seen on the battle front. There was considerable speculation over the manner in which the German press would receive the news.

## WILL RUSH AMERICAN TROOPS TO THE FRONT.

(International News Service.)  
Washington, June 28.—No time will be lost in getting the American soldiers now on French soil to the western firing line. There will be a short period of "breaking in" just back of the trenches, and within ear shot of the tremendous artillery bombardments, and then the flag of the United States, carried by regulars, will be planted on the line alongside those of England, France and Belgium.

The total of four contingents reached the American naval base in France yesterday, it became known at the war department today. Only meagre dispatches from General Pershing and General Sibert, who commands the force, reached Secretary Baker today.

A great fleet of transports was used to carry the American soldiers across the Atlantic. They were protected all the way by some of the mightiest fighting ships of the American navy. All of the American forces that have left the United States are on French soil. The news that American regulars will soon take their place in the trenches of France is expected to prove a severe blow to the morale of the German army. At the same time the arrival of troops in France will not be without its effect in this country. Recruiting will be spurred.

## EXEMPTION BOARD SANS INSTRUCTIONS

EXPECTED, HOWEVER, THAT THE  
PLANS WILL BE COMPLETED  
IN TWO WEEKS.

The Morgan county exemption board, composed of Sheriff Forman, Circuit Clerk Draper and Dr. M. W. Murray, county health officer, at noon today had received no instructions from either Governor Henderson or Provost Marshal General Crowder. It is expected, however, that they will be notified of their appointments at once, as it has been announced that the task which they have been assigned must be completed within two weeks.

The exemption regulations, also, are still withheld, and are not publicly known. It is understood that the regulations will map out only the general procedure of the boards. It is regarded as certain that no specific class exemptions will be provided for.

As a matter of course, no man with serious physical defects will be called upon for military service. The judgment of the civilian doctors who are attached to local exemption boards as to the ability of any individual to bear the hardships of a soldier's life will be a determining factor.

Married men will not be exempted as a class. In each case the object of the board will be to determine whether the dependency of wife, children or other relatives warrants the rejection as a soldier.

Probably the boards will be furnished with suggestions as to occupational exemption. The importance of an individual in professions or trade, however, can only be determined by the local board.

No inkling has been given as to the part to be assigned to those who are to be granted partial exemption because of religious belief. They are to be freed from regular military service, but the act contemplates that they can serve in some non-combatant capacity behind the lines. In such cases the question of physical disqualifications is wholly different, and there are many fine points that will have to be decided in that connection as the facts present themselves.

## Mrs. Forbes Dies at Her Home In Kansas

Was the Mother of Mrs. B. Crawford  
of Albany.

The sad news of the death of Mrs. W. H. Forbes at her home in Highland, Kansas, was received here today by her daughter, Mrs. B. Crawford, who left at once for that place. The telegram announcing the death of Mrs. Forbes was brief, but a letter received yesterday had stated that she was in her accustomed health, and it is thought that the end must have come suddenly.  
Mrs. Forbes had visited here frequently, and both she and Mr. Forbes had spent last winter here. She was greatly beloved by a wide circle of friends.

## ALBANY BOARD OF COMMERCE HAS MADE GOOD.

Announcement yesterday by the Albany Board of Commerce that a silk mill has been located here, to begin business within three months, is the most important made by the live commercial organization since its formation some months ago. It is the most important for the reason that the industry is one so unique in character that the city will receive wide advertisement throughout the United States as the only one in the South possessing such an industry, and because the plant is to be one of considerable magnitude. Prior to this the Board had financed and established an overall factory and a broom factory, both of which are now in operation.

It is more than evident that the Board of Commerce has made good. The very fact that it has convinced local business men that by concerted effort the town can be made to grow is of incalculable value. The village idea that the lightning will strike some fortunately located municipality has been dispelled. It has been demonstrated that in town building as in everything else worth while, real energy, real brains and real money accomplish results. The lesson is one that should never be forgotten. There should now be no disposition to withhold support from the Board of Commerce or to question its worth.

It is not out of place to give Secretary Archibald large credit for the success of the Board of Commerce. The secretary of such an organization is its ruling force, and the organization succeeds just in proportion to the ability, the force, the initiative and the energy of its secretary. His resignation, which has already been tendered, should not be accepted. Albany needs men who can do things.

## THE LANDING OF AMERICAN TROOPS IN FRANCE.

Let the Kaiser look to his laurels. Let the Uhlans have care of their scapels. Let the Bavarians be jealous of their fame. American troops are on French soil, and the American flag is soon to float over the battle line. The first contingent of "Black Jack" Pershing's men, clad in khaki and burned by the suns of Mexico, Haiti and Santo Domingo, are in Europe ready to battle for democracy against autocracy. Before that flag comes home the map of the world will be changed and the fate of empires will be written in letters of fire.

American blood is stirred by the announcement that the initial expedition has defeated German submarines and the terrors of the deep and landed on the historic soil of France. American interest in the world war, heretofore largely passive, has become active and intense. Every casualty list, every official war office announcement assumes a new and deeper meaning. From this time forth the nation will put its heart into the common cause of winning the war, to which its every resource is pledged. All other interests will be subordinated to giving the heroes of the trenches that universal support so necessary to success.

German "kultur," wise in its own conceit and given to looking upon the United States as a nation of mercenaries, is to be awakened from its false security. The Hohenzollern and the Hapsburgs are to be taught the lesson that the descendants of Washington are as patriotic as their fore-

fathers. The task is a big one, but it will be well done.

And now that "our boys" are nearing the firing line, let our prayers go up for their safe return. And let our every energy be turned to the task of bringing the bloody war to a quick and satisfactory conclusion.

## JOHN L. STODDARD, A RENEGADE AMERICAN.

The Montgomery Advertiser and other American newspapers that have called attention to the amazing actions of John L. Stoddard, an ex-American writer and traveler, are doing America a public service. Stoddard is the same man who wrote several tons of more or less dreary lectures which have been extensively marketed in the United States and the sales from which have made the man rich with American gold. He is a graduate of Yale and of old Massachusetts stock.

Stoddard left the United States some time ago and bought two homes in foreign lands, one in Austria. Some of the high Austrian and German ideals of humanity (?) must have been instilled into the poor man when he wrote the following poem, the first verse of which only is imposed upon the good nature of the readers of the Daily:

Cowards, who kill three thousand miles away,  
See the long lines of shrouded forms increase!  
Yours is this work, disguise it as you may;  
But for your greed the world were now at peace.

This poem, directed at America, was widely circulated in Germany as part of the anti-American propaganda of the Kaiser. It helped to fan hatred of America in Germany and thus spur the ruthless Teuton military masters on to deeds of more cruelty and violence against the American people. Thus it was one of the contributing causes of the war.

Stoddard will thus be partially responsible for the war with Germany in which thousands and maybe millions of his fellow American citizens will be killed. Of course he is a traitor of the lowest possible order. So low that we may respect Benedict Arnold by comparison with Stoddard.

## THE DAYLIGHT SAVING BILL.

The congress of the United States has never yet attempted to make water run up hill or to shorten the life of the Kaiser by moving his birthday back some score of years by legislative enactment. It has never gone on record as declaring that the law of gravitation is unconstitutional, or that black is white. However, the august senate on yesterday did pass a "daylight saving" bill, which becomes effective on the last Sunday in next April and continues in force until the last Sunday in September, the purpose of which is apparently to lengthen the day or to shorten the night, just as you prefer. The bill now goes to the house of representatives, and if passed there, must be signed by President Wilson before it becomes a law.

The "daylight saving" plan is to turn the clock back one hour. Or in other words, the gent who is inclined to sleep late must consult the clock and ignore his feelings and jump up briskly and shave his "shining morning face" and go to work an hour sooner. He could turn the old clock up now and get the same results, but it wouldn't be legal. Legality is the thing, where early rising is concerned. Just how the new law would work at the poles is a problem for the scientists to figure out for themselves. The senate of the United States goes no further than to issue its imperial decrees. It is under no obligations to obey its own mandates or to solve the problems which it creates.

Arthur Brisbane, leading editorial writer of the Hearst newspapers, has purchased the Washington Times. It's a cinch that Mr. Brisbane will reduce that \$100,000 salary that he is supposed to receive, provided he writes his own editorials.

It's a safe bet that the German emperor is giving more time just now to arranging "an advantageous peace" than he is to dreaming of world conquest.

The United States now has more men in France than the Marquis de LaFayette brought to America. The debt is wiped out and the balance is shifting to the other side of the ledger.

With the clock turned up an hour, these old-fashioned people who yell "bedtime" at their daughter's best beau, will score almost before dark.

Wouldn't it be great if congress would reduce the price of the 5-cent cigar just one jiffy!

Suffragists arrested at Washington for disgraceful conduct have been sentenced to jail. If that doesn't cure them the asylum is recommended.

Now that Pershing's men are in France, the Kaiser had just as well cancel his order for a dinner in Paris.

To either cuss or discuss the weather at this time should be permissible, even in fashionable society.

## STATE OF ALABAMA, MORGAN CO.

B. Crawford & Sons Co., plaintiff.

vs.  
John H. Williams, defendant.  
In the Circuit Court  
of Morgan County.

To John H. Williams, residing some place in the State of Ohio, whose particular place of residence is unknown:

You are hereby notified that in the above entitled cause an attachment was issued out of the Circuit Court of said County and was returnable to said court at the next term thereof and the same was levied by the sheriff upon the following real estate as belonging to you to-wit:

House and one acre square lying in the northwest corner of the lot owned by John H. Williams, which is about 100 to 150 yards southwest of the Cedar Lake colored school house and upon which said building is situated, it being the house in which the said John H. Williams recently resided. The west boundary of said acre lot is about 24 feet west of the front edge of the front porch of said house, said western boundary line north and south, and the north boundary line of said acre is about 66 feet north of the north end of said house. Said acre lies about 200 yards west of the main line track of the L. & N. R. R. and about 50 or 60 yards east of transmission line of Alabama Power Company.

And this is to notify you of the issuance and levy of such attachment and the return thereof to the said Circuit Court; when and where you may appear and defend said suit and attachment if you see proper so to do.

Given under my hand this 27th day of June, 1917.

J. L. DRAPER,  
Circuit Clerk.

One Good Turn Deserves Another.

"The late Earl of Cork was a very pious person, and extremely solicitous as to the future salvation of his fellow men. One day, finding himself in a crowded railway carriage, he delivered a homily as earnest as it was undesired, exhorting everyone immediately to set about insuring his happiness in a future life. Presently one of the passengers, who had been listening very attentively to all that Cork said, arrived at his station," says Lord Suffolk in his memoirs. "When he had got out on the platform he turned round and, leaning through the carriage door, said: "Thank you, sir. One good turn deserves another. You've put me up a wrinkle in your profession; now let me give you one in return. I'm a hatter. Put a piece of blotting paper inside the lining of your hat, and it will last twice as long. Good-day."

## LITTLE INSIDE STORY BY PROMINENT DRUGGIST

Druggists usually keep their business to themselves. This is one time, however, when a little talk is necessary as it may be of interest and value to our customers.

We recently put in a stock of a new Malted Food Product called HEMO. The results from the sale of this product are most gratifying, as we are told every day of the merits of this food by customers who have tried it.

We want to recommend this food to all as the best to be had for all cases of stomach and digestive disorders, also for anaemics, convalescents and invalids. It is of wonderful value in restoring the health of those generally debilitated or run down from any cause.

Come in today as we want to have a personal talk with you on HEMO and also to show you that we have the best stocked and most modern drug store you have ever seen. We will appreciate a call.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

## CARDUI The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work, I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

### THOUGHT.

"I took a piece of plastic clay, And idly fashioned it one day, And as my fingers pressed it, 'Till It moved and yielded to my will

"I came again when days were past; The bit of clay was hard at last, The form I gave it still it bore, But I could change that form no more.

"I took a piece of living clay, And moulded by my power and art, And gently formed it day by day, A young child's soft and yielding heart.

"I came again when years were gone, It was a man I looked upon, He still that early impress wore And I could change him nevermore."

—Alabama Christian Advocate.

### Trade Commission Gives Figures and May Take Action Later.

Current retail prices on canned vegetables are nearly twice the prices paid by wholesalers for this season's output, the federal trade commission reported today in connection with its investigation into food prices. The inquiry into canned goods the commission explained, is "to forestall speculative prices."

Wholesalers are paying about 7½ cents for corn and about 9½ cents for tomatoes and peas, f. o. b. factory. The same cans are sold retail at an average of 17 cents for corn, 18 cents for peas and 20 cents for tomatoes.

"A large part of the canned goods now being sold at these prices is last year's pack," says a commission statement, "and was sold by the canners at considerably lower prices than now prevail."

The statement does not attempt to analyze the difference in prices, but says:

"Next autumn and winter, if complaints are made in any locality that unreasonable prices are being charged for the canned peas, corn, tomatoes, salmon or similar products which are now being packed, the commission will be in a position to promptly expose any extortions."

Reports have been received from about 2,000 canners in response to the commission's inquiries. The commission will investigate quantities purchased by various dealers in an effort to prevent speculative holding—Louisville Courier-Journal.

A called meeting of the Young People's Missionary Society of the Central Methodist church will be held tomorrow afternoon at 4 o'clock with Mrs. Brentz Preult.

Miss Ira May Oglesby has returned from San Antonio, Texas, and is now a guest of her father, R. P. Oglesby. Miss Oglesby is a graduate of the San Antonio branch of the Powers School of Expression and Dramatic Art of Boston, and while here may give a recital for the benefit of the Red Cross. She will probably leave the latter part of July for the Pacific coast. She is said to be a gifted young lady and her appearance here will be looked forward to with interest.

### HEALTH OF WOMEN WRECKED BY IGNORANCE

Avoid a Life of Misery and Ill Health By Using a Celebrated Physician's Favorite Prescription

For every disease or ailment of a womanly character, no matter how recent or long standing, the one sure, reliable remedy of proved merit is Dr. Pierce's Favorite Prescription.

Women should never experiment with unknown preparations; the risk is too great. Dr. Pierce's Favorite Prescription is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic.

Women are earnestly advised to take it for irregular or painful periods, backache, headache, displacement, catarrhal condition, hot flashes, sallow complexion and nervousness.

For girls about to enter womanhood, women about to become mothers and for the changing days of middle age Dr. Pierce's Favorite Prescription should always be on hand.

It's a temperance remedy that is extracted from roots with pure glycerine and its ingredients are published on wrapper.

Any medicine dealer can supply it in either liquid or tablet form. The cost is modest, the restorative benefits truly remarkable. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free confidential medical advice.—Adv.

### THE MOTHER.

The while she fits her brood for bed, And scrubs away the dirt, And gently brushes tangles out, And heals the scratch that hurts, She searches in their hearts as well Each tiny bruised spot, Where childish woes have pressed too hard And left a bitter thought.

Says "Teacher wasn't cross—just tired She did not mean to scold." And "Grandpa did not understand, Poor Grandpa's getting old." "I thing Tom said that just in fun, Of course you mustn't mind." "If she was mean, just pay her back By being extra kind."

Thus through her eyes they view their world, In love's most favoring light, Then, when the whispered prayers are said, And all are kissed good night, In no love-cleansed, God-guarded heart

Can bitterness be found, Since patient mother lips have drawn The poison from each wound. —Edna A. Collamore.

### The Word "Arsenal"

The interpretation of the department of justice that the word "arsenal" in the president's war proclamation bars unnaturalized Germans from the vicinity of state armories as well as navy yards, forts or camps occupied by the military, will affect thousands of such residents in all parts of New York city. Before June 1, when the order becomes effective, the United States marshal's office here expects a rush of Germans, who, had neglected to become citizens, for permits to retain their present places of residence. Many of the districts affected are thickly populated, some being apartment-house districts in which there are hundreds of German residents. Not only these but their German friends desiring to visit them must have permits. According to a list prepared by federal officials there are 19 armories in the entire city coming under the terms of the proclamation, as well as two naval militia posts.

D. C.—have all been given special invitations to be present at the morning service, and the Junior Order will attend in a body at the evening service. The morning subject will be "Our Flag," and the evening subject, "Our Patriotism." Special music will be rendered by the choir and quartet, under the direction of Mrs. B. B. Pickens, organist, at both services. The public is invited to attend.

## New York Girls Sold Into Slavery

(International News Service.)  
New York, June 28.—Vice conditions in New York are now the worst in the city's history. And despite the police policy of suppression, white slave agents are weekly luring many girls out of New York into lives of shame. R. W. Hebbard, executive secretary of the committee of twelve, made this charge today while police investigation of the Ruth Cruger murder case was bringing new revelations concerning the white slave traffic.

## Twenty-One British Vessels Torpedoed During Past Week

(International News Service.)

London, June 28.—Twenty-one British vessels of more than 1,600 tons each and seven under 1,600 tons, were sunk by mines or submarines last week, according to the weekly statement of losses issued by the admiralty yesterday evening.

No fishing vessels met with disaster. The admiralty statement reads: "Arrivals, 2,471; sailings, 2,922."

"British merchant ships over 1,500 tons sunk by mines or submarines, including one previously, 21; under 1,600 tons, including one previously, 7."

"British merchant ships unsuccessfully attacked, including seven previously, 22."

The aggregate number of vessels flying the British flag destroyed by mines or submarines last week shows a net falling off of four as compared with the losses reported the previous week which numbered thirty-two—27 more than 1,600 tons and five in the smaller division. In the larger category a decrease of six vessels is shown, while among the smaller craft an increase of two vessels lost is indicated.
